CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

THE BUSY HUM.

News Notes as Picked Up Around the Depots and Manufacturing Establishments of the City.

Wm. Irvin has accepted a position in the Bass boiler shop.

John Liether has accepted a position in the American wheel works.

Patrick Phillips has accepted a position in the Pittsburg boiler shop.

Ed Claytor, of the Bass boiler shop, is doing some work at Columbia City.

Engine No. 16 has been turned out of the Grand Rapids shops after a general overhauling.

Joe Schnee, of the car wheel department of the Bass works, failed to report for duty this morning.

The Brotherhood of machine moulders will have a regular meeting in their rooms in the K. of L. hall this evening.

Dr. Cisna, medical examiner of the relief department of the Pennsylvania company, arrived in the city this morning.

The engine of passenger train No. 3, of the Nickel Plate road, came into this city with the headlight broken, yesterday.

Frank Tyler, Al Ranking and Wm. Wesley, of the Wabash shops, were absent from duty yesterday to attend a funeral.

G. P. Lehr and C. F. Dyer, of the Pittsburg round house, are obliged to be absent from their duties on account of sickness.

Robert Cran, foreman of the car wheel department of the Bass works, and well known councilman, has left on a trip with the city officials.

Engine No. 211 has been turned out the Wabash machine shop after a general overhauling, and No. 78 has been received for general repairs.

M. Slattery was in the city on business yesterday. He was formerly a brakeman on the Nickel Plate road, with headquarters in this city.

Jacob Cashmere, of the machine department of the Wabash shops, who has been at the company's hospital at Peru, has returned home. He was sick and was unable to be on duty.

Thomas McCoy, messenger in the offices of the Grand Rapids railroad in this city, who has been at Chicago to visit his parents during the holidays, has returned. Ed Lynch performed the duties during his absence.

Wm. Eberhart, of the Bass moulding rooms, has received a check from the Indianapolis insurance association for the amount due him. He was badly burned and was absent from duty ten weeks. The check amounted to eighty dollars.

George Schwartz, formerly of the boiler department of the Kerr Murray works, who was in this city to spend a few weeks, has returned to his headquarters at Toledo, Ohio. He is now a brakeman on the Toledo and Ann Arbor railroad.

H. Greensburg, of the plaining mill department of the Pittsburg car shop, was injured yesterday while handling a heavy body bolster. It accidentally fell on his foot, injuring it quite badly. He will not be able to resume his duties for several days.

The little daughter of John Druhot, of the Bass moulding rooms, died last evening at his home, on Wallace street. Mr. Druhot has the sympathy of many friends in his bereavement. The funeral will occur Sunday afternoon from the Cathedral.

The Southern Pacific has contracted for the building of a funeral car, with side entrances and compartments for mourners. While it is to be neither expensive or elegant, it will be appropriate in every respect to the service for which it is intended.

The class in mechanical drawing, composed of employes from the Pittsburg shops, will have their regular meeting in their rooms at the Library hall this evening. Quite a number are now in the class. F. L. Sessons, of the electric light works, is the teacher.

The machine department of the American wheel works, which has been a landmark on Toledo street, near the junction of Lafayette street, has been torn down. A part of the frame work, which was left standing, has been remodeled and will be used for a store room.

President Ingalls is quoted as saying that the report that the big Four would be one of the bidders at the foreclosure sale of the Dayton, Fort Wayne and Chicago road has no foundation. The holdings of the creditors are such that it would be useless for an outside party to bid on the property.

J. A. Nolan, formerly of the Pittsburg machine shop, is the recipient of a novel Christmas present, which he received from a friend formerly of this city, but now located in the City of Mexico. It is a handsome coffee-wood cane, artistically carved, and bears the emblem of the country from which it was sent.

The injunction suit in which the Indiana Midland is plaintiff and the Fort Wayne, Terre Haute and Southwestern is defendant, was tried in the Clay circuit court, at Brazil. Documentary evidence was introduced by the defendant to show that the old north-and-south grade had been forfeited to its original owners. Reflection was cast by affidavits of former employes or citizens from Anderson, Ladoga, Lebanon and elsewhere along the route on the road-bed, rolling stock, and financial condition of the Midland. A disclaimer was then urged of any intention to trespass on the Midland's right-of-way from Carbon to Brazil. Mr. Crawford objected that the disclaimer was not specific as to the grade of the old north-and-south road, which, in compliance with the laws of Indiana, had been appropriated by his company as a right-of-way. Judge McGregor will render his decision to-morrow.

Col. John Lee still clings to the belief that the American Midland will be extended to Fort Wayne. The Findlay and Western, incorporated last week, proposes to build the road to the Indiana state line, and Colonel Lee proposes to incorporate another company to build the road from the Ohio state line to Fort Wayne, the two then to be consolidated under the name of the Findlay, Fort Wayne and Western.

SERIOUSLY INJURED.

Mrs. Flora Brown Confined to Bed From the Effects of a Fall.

Mrs. Flora Brown, of 68 Prince street, fell on a slippery sidewalk and suffered injuries which rendered her helpless. The lady was conveyed home and it is believed she will be bedfast for a long time to come. She is a heavy woman and consequently the effects of the accident are more serious.

Mrs. Brown is the mother of John Brown, the superintendent of water works along the Wabash railroad.

COMPLIMENTARY RECITAL.

The Beethoven Society Will Give a Select Entertainment.

On Tuesday evening, January 13, the Beethoven society will give a complimentary recital at the Electric Club hall. There is no charge for admission, but invitations are issued. It will be the first public entertainment given by the society, which now numbers nearly one hundred members, and it will be under the direction of Professor Miles, the popular leader of the organization since its inception. The program will be as follows: 1. When the Winds Breath Soft, Webb, Beethoven society. 2, Piano solo, F. Chopin, *a* Valse in E minor; Shubert-Liszt, *b* Auf dem Wasser zu Singen; Leschetiszey, *c* Fisher Song, Miss Josephine Large. 3. Bridal chorus—from "The Rose Maiden," F. Cowen, Beethoven society. 4. Harp solo, selected, Miss Josephine A. Albert. 5. Comrades in Arms, Beethoven, male chorus. 6. Piano solo, Mendelssohn-Capreccio Brilliant, Miss Anna Siboni. 7. Quartet, selected, Hayden quartet. 8. Harp, Le Sarafan-Oberthur, Miss Josephine A. Albert. 9. Hallelujah—Mount of Olives, Beethoven, Beethoven society.

Fun will be the order of the evening at the Temple to-night and to-morrow night, when "Out of Sight" will receive its initial perforance here. The play is of the farcial order. It comprises all the elements of farce comedy, music, burlesque, pantomime and terpischore. The play in plot deals with the fortunes and misfortunes of a young girl, who in obscure circumstances, suddenly finds herself the possessor of millions. It points sarcastically to fortune-hunting nobility and snap aristocracy.

Tried and True

Is the positive verdict of the people who take Hood's Sarsaparilla. When used according to directions the good effects of this excellent medicine are soon felt in nerve strength restored, that tired feeling driven off, a good appetite created, headache and dyspepsia relieved, scrofula cured and all the bad effects of impure blood overcome. For a good blood purifier, take Hood's Sarsaparilla.

DELLA BIRD.

How Kuhns' Sweetheart Received Him at the Tiffin Jail.

(Fostoria Democrat.)

Kuhns has become a "naturalized" inmate of the Seneca county jail and is resigned to his fate. When the hack containing Kuhns drove up to the jail, Della Bird, his alleged wife, who is being held as a witness, was at one of the windows of the sheriff's residence, and as soon as she saw him she threw up her hands, turned pale and exclaimed: "Oh, heavens! they have got him here."

When Kuhns was asked by a reporter if he had met his old girl, he said, with an oath, that he had not and it would be a long time before the autnorities would allow him to talk with her. The girl was asked if she had talked with him and she replied:

"No, nor I don't want to talk with him."

"Have you seen him?"

"Yes, I saw him as he was being brought into the jail."

"How does he look?"

"Oh, he looks awful bad, but that is not strange after what he has passed through. The wonder is that he is not dead."

Detectives Mahoney and Norris are at Tiffin, having been cited to appear in the case. Mahoney had an interview with Kuhns, and they joked about the incident of the latter escaping from the former.

"Mrs. Winslow's Soothing Syrup" has been used over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays pain, cures wind colic, regulates the bowels and is the best remedy for diarrhœa, whether arising from teething or other causes. For sale by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup. 25c. a bottle. an27-1y

THREE GOVERNORS

Of One State—That Seems to be the State of Affairs in Nebraska.

LINCOLN, Neb., Jan. 9.—On the face of the returns yesterday the speaker of the house found Boyd elected governor, and he was sworn into office.

Powers, the alliance candidate, took the oath of office at 10 a. m. to-day and it is said that the legislature will recognize him as governor. Ex-Governor Thayer still holds the executive office and Governor Boyd has taken offices in another part of the building. All the new state officers have been recognized except the governor. Tom Major was installed as lieutenant-governor and president of the senate under protest.

Governor Boyd has the governor's seat and has been recognized by all the state officers as governor and they will report to him. Governor Boyd will appoint and swear in a new staff and take command of the militia when, it is stated, Company D, now on duty will, under their new commander's orders, retire to their barracks. Ex-Governor Thayer will then be asked to retire, and if he refuses, it is most probable that Governor Boyd will put him out of the office by force.

THE INDIANA LEGISLATURE.

The Wheels of Legislation Started—Annual Message of the Governor.

INDIANAPOLIS, Jan. 9.—The formal organization of the Indiana house was completed yesterday by the election of Hon. Mason J. Niblack as speaker. Thomas J. Newkirk, of Rush, was elected principal clerk; Charles E. Crowley, of Sullivan, assistant clerk, and Frank E. Heimbaugh, of Miami, doorkeeper by a strict party vote of 75 to 24. The remainder of the forenoon session was occupied with resolutions, and there was an early adjournment in the afternoon.

Lieutenant-Governor Ira J. Chase called the senate to order. The usual nominations made by the democratic caucus were elected to their respective positions, David H. Fenton, of Lake, principal secretary; George S. Plessants, of Switzerland, assistant secretary, and Oliver T. Wells, of Marion, doorkeeper.

The governor gave a reception to members of the legislature and the public generally last night, at the state capital, in which he was assisted by his daughter, Mrs. Gen. Mankins, of North Vernon. Music and dancing was provided for the young people, and refreshments were served to 1,000 guests.

At the meeting of the legislature today the annual message of the governor was read.

IS HE DEAD?

The Family of Abraham Cline Sue on a Life Insurance Policy.

LOUISVILLE, Ky., Jan. 9.—A life insurance company here has retained counsel in a case that is to be tried shortly in the circuit court. Several years ago Abraham Cline, who held a $5,000 policy on his life disappeared from his home at Scottsburg. As he was not heard from for some time, his family believing him dead, filed a claim against the company for $5,000. Recently a skeleton was found in a cave near Scottsburg and the family now claim that this skeleton is that of Cline and demand that the policy be paid. The company has resisted this claim on the ground that the skeleton found was placed there by the family in order to make a stronger case.

DR. MARY WALKER.

Will Cling to Life Until She Gets Her Pension.

OSWEGO, N. Y., Jan. 9.—Dr. Mary Walker, who was recently reported as dying on her farm near this city, has recovered, and was in town a day or two ago. She declares that she will not die before she gets her pension of $10,000 from the government. She says there is a great apprehension in the public mind concerning her claim against the government. She says she is not asking for a pension, but for an appropriation to pay for services rendered and money expended as a surgeon in the army, for all of which she has never been reimbursed.

BROTHERLY LOVE.

One Hundred Masons Will Permit Skin to be Cut From Their Bodies.

CHICAGO, Jan. 9.—On Sunday next, at the Emergency hospital here, nearly one hundred members of the Masonic fraternity will permit skin to be cut from their bodies for grafting upon the body of John Oscar Dickerson, a fellow Mason, whose recovery from an operation for the removal of a cancerous growth depends upon this treatment.

CROCKETT'S GRANDSON.

Death of a Descendant of the Famous Davy Crockett.

BUTGARZ, Ark., Jan. 9.—Col. Robert H. Crockett, one of the leading politicians of Arkansas, and only surviving grandson of the famous Davy Crockett, died here yesterday. Colonel Crockett was about forty years of age.

Wallace's Failure.

PHILADELPHIA, Jan. 9.—The assignees of the Hon. Wm. A. Wallace, at Clearfield, have failed to furnish the bond required in the sum of $1,000,000, and, as a result, a settlement of the creditors, through the assignees, has practically been abandoned. Executions have been issued upon the judgments of record, and the personal property of the ex-senator has been sold. All his real estate has been levied upon, and will be sold on January 30. This turn of affairs was wholly unexpected by the creditors here.

CONGRESS.

Senate Bill for the Incorporation of the Pan-American Transportation Company.

WASHINGTON, Jan. 9.—The senate bill for the incorporation of the Pan-American transportation company was ordered to be favorably reported to-day, by the house committee of commerce. The bill provides for the incorporation of the company with a capital of $10,000,000. The company is to run a line of steamships between the United States and South American and Central ports, and it is required to make an annual report to the secretary of the interior.

The house to-day passed the bill authorizing Oklahoma City to issue bonds to provide a right-of-way to the Choctaws coal and railroad company through the city. The house then went into the committee of the whole on the private calendar.

The senate to-day passed the house bill for the relief of Major Wham, crediting him with $28,245 of government funds, of which he was robbed in Arizona in May, 1869.

DESPERADOES' DEED.

Burn a Residence for Mystery—Mother and Daughter Perish.

ATLANTA, Ga., Jan. 9.—Mrs. R. G. Peters and her ten-year-old daughter, Agnes, were burned to death early yesterday morning, at their home. People on the outside, who first detected the fire, saw four men run away from the building in different directions. Mrs. Peters was known to have a large sum of money in the house, and there is every reason to believe that desperadoes from a distance had robbed and murdered the woman, and set fire to the house. Blood hounds were secured and put upon the trail of the men who were seen running from the house, and they were tracked to the railroad station, where all trace of them was lost.

STRIKE CONTINUED.

The North British Rejects the Proposal of the Men for a Compromise.

LONDON, Jan. 9.—The North British railway company has formed a committee to receive public donations for the reward of men who have remained loyal to the company and added to the comfort of the public by continuing at work.

John Burns, addressing a meeting of strikers at Burns' island, yesterday, reproached the men as faint-hearted, for proposing to resume work. The meeting adopted a motion of regret at the necessity for continuing the strike. The companies rejected a proposal by the strikers for a compromise, one feature of which was that the men offered to leave the question of recognition of their union in abeyance.

WILL FIGHT TO-NIGHT.

Two Pugilists to Fight to a Finish at Peoria, Ill.

PEORIA, Ill., Jan. 9.—George Siddons, light weight pugilist of Chicago, and "Sharrow" Lewis, of Troy, N. Y., are to fight to a finish near this city, to-night. Arthur Magesty, of Toledo, O., is here and will act as referee. The match is to be for $250 a side and the gate receipts. Both men are in excellent condition. The betting is in Siddon's favor.

ON HIS MUSCLE.

Sullivan Attacks a Reporter Who Wanted to Interview Him.

MILWAUKEE, Wis., Jan. 9.—John L. Sullivan came from Chicago yesterday afternoon with his company, which opened here last night. Sullivan was out of humor and had hardly reached the Plankington house when he assaulted a reporter, who, he declared, had insulted him by intruding for an interview while Sullivan was in the company of a lady.

HIGH WATERS

Interfere With Railroad Travel in Texas.

DENNISON, Texas, Jan. 9.—The incessant rain for the past forty-eight hours has raised the Red river out of its banks. The new steel bridge of the Missouri, Kansas and Texas railroad is in danger of being swept away. No trains have crossed in the past thirty-six hours.

WHEAT STEALS.

Three Commission Men Arrested at Clark, South Dakota.

CLARK, S. D., Jan. 9.—A sensation was created yesterday by the discovery of extensive wheat steals from the elevators. Frank Russell, Fred Bradley and Wilson Diehl, all prominent commission men, were arrested and more arrests are to follow.

The Weather.

WASHINGTON, Jan. 9.—For Indiana and Ohio: Threatening weather with snow or rain; easterly winds; stationary temperature, except slightly warmer in Ohio.

To-day the sad intelligence was sent Dr. Ogle that his neice died at the home of her father, Prof. I.W. Ogle, of Ocala, Fla.

THE GHOST DANCE

Still Continued by the Indians and Trouble May Come if the Government Interferes.

WELLS, Nev., Jan. 9.—About 200 Snake and Shoshone Indians left this vicinity Wednesday and yesterday to attend the ghost dance in the Star valley, at the head of Humboldt river. Chief Soldier Charlie claims there is no danger of an outbreak unless the government attempts to stop the dance and force the Indians to remain on the reservation.

GUTHRIE, O. T., Jan. 9.—Much fear is being felt over the menacing attitude of the Indians of this territory. King Fisher is much worked up and militia and minute men organizations have been perfected. The inland towns are at last on the alert and will put themselves in readiness to aid the border settlers. G. H. Laing, secretary of the militia company at King Fisher, was in the city yesterday. He was here to consult with United States Marshal Grimes, and in his report he stated that within ten days every border town in Oklahoma would be under picket guard. The Indians are becoming very bold.

PINE RIDGE AGENCY, Jan. 9.—At the suggestion of Buffalo Bill, General Miles last night sent out scouts to ascertain who the Indians are that have been seen at the head of the Snake river, south of Neobria. Last night it was reported in camp that 300 Indians, said to be coming, are reported in camp three miles from the agency. The report has been verified.

PENDLETON, Ore., Jan. 9.—Two strange Indians arrived here yesterday morning on a train from Montana. It is thought they are runners from disaffected tribes sent here to lead away the young hot headed bucks on the Umatilla reservation.

SALT LAKE, Utah, Jan. 9.—Acting Governor Sells yesterday assured from the commander at Fort Douglas 200 rifles and 5,000 rounds of ammunition, to be sent up the railroad for the protection of its employes at Postalis.

BOISE CITY, Idaho, Jan. 9.—As a result of a conference between Governor Willey and Major Noyes, commander of the Boise barracks, a cavalry company and an infantry company are held in readiness to move on a moment's notice. Adjutant General Curtis, of the Idaho national guards, has been sent to Postelle station to confer with the people. The decision of the governor will depend upon the report of Adjutant General Curtis.

RUSSELLS, Neb., Jan. 9.—Notwithstanding the report that the government troops are preparing to force the Indians trouble to a crisis by surrounding the hostiles and making them either fight or surrender, there are other indications that the present condition of affairs may be prolonged all winter. The lines are being strengthened at the scene of hostilities, and both parties are improving their positions by digging rifle pits and throwing up breastworks. The Indians captured and drove off the agencies herd of cattle, so they are in no danger of starving.

It looks now as if the two armies might confront each other until spring opens, unless the United States takes the initiatory and that it is not likely to do until all the friendlies are known to have separated themselves from the hostiles. A snow storm is raging at the present time, and what effect it may have on the situation is hard to tell. The Indians are reported destitute of blankets and have not drawn clothing for a year, so they are in bad shape to endure a spell of severe winter weather.

THREE KILLED!

Fatal Explosion Near Oakland, Cal.—The Fire Record.

SAN FRANCISCO, Jan. 9.—A report reached here last night that an explosion had occurred at the California powder works at Pinole, a few miles east of Oakland. Three men are reported as having been killed.

AURORA, Mo., Jan. 9.—News reached here last night that Mount Vernon, county seat of Lawrence county, suffered a serious loss by fire Wednesday night. About twenty houses and several large stores were destroyed. The Chieftain and the Fountain and Journal printing offices and the Mount Vernon bank building were burned. Loss is estimated at $50,000.

ASHLAND, Pa., Jan. 9.—A few months ago a fire broke out in the Big Mine Run culm banks. Water was turned upon it with the hope of extinguishing it. Yesterday while a gang of workmen were running a stream into a mine, a breach which had been filled with rock, and was exposed by the washing away of the culm from the surface, steam arose and was shortly followed by flames. This indicates that a fire is raging in the workings and the officials have become alarmed, as the two large collieries, the Big Mine Run and Bea collieries, are in danger. Breastworks will now be put up to prevent, if possible, the spreading of the fire.

Base Ball.

PHILADELPHIA, Pa., Jan. 9.—A. W. Thurman, of the base ball conference committee, arrived here last night. He comes to try and settle the claims of the different aspirants of the Athletic Franchise. He met representatives of the Players league last night and to-day he will meet the minority stockholders of the old Athletic club.

JAY GOULD

Said to Have Purchased a Controlling Interest in the Santa Fe.

NEW YORK, Jan. 9.—The story went around among the crowd of railroad presidents at the Windsor hotel last night that Jay Gould had secured control of the Atchison, Topeka and Santa Fe railroad, one of the most extensive railroad systems in America, with 8,000 miles of track. It was said that he had bought 50,000 shares of the stock held by the firm of Baring Brothers & Co., of London, which is now in the course of liquidation. Russell Sage is said to have 5,000 shares.

For several days there have been reports in Wall street of a protective consolidation of Mr. Gould's southwestern system, the Missouri Pacific railroad and tributary lines, and the Atchison. They were thought last night to have their origin in the reported purchase of Atchison stock by Mr. Gould. The Atchison would afford Mr. Gould a line to Chicago from the west which he has been seeking for some time.

No confirmation or denial of the report could be obtained last night from Mr. Gould or from George C. Magoun, chairman of the board of directors of the Atchison, and the managing partner in Kidder, Peabody & Co. A gentleman who has just come from the meeting of the railroad presidents, says the subcommittee will not be able to report to the general committee until to-morrow evening. The meeting of the general committee has, therefore been deferred to that time.

SUCCESSFUL SURGERY.

The Bones of a Boy Grafted Into the Leg of a Boy.

PITTSBURG, Jan. 9.—Six weeks ago Szamie Radin fell at his home in Germany and broke his right leg below the knee. His leg was set, and the family emigrated to Pittsburg. On arrival here it was discovered that the broken bone had decayed for a space of six and a half inches. The boys's parents would not permit amputation of the limb, but consented to have the bone grafting tried, and the boy was removed to Mercy hospital. Yesterday the operation was performed by several surgeons of prominence. Two black and tan puppies, about five weeks old were procured. The lad's condition was excellent, he having slept well and had a good appetite. He was not put under the influence of any drug, but sat up and witnessed the whole operation. One of the dogs was used, the other reserved for a second resort. Ether was administered, after which the lower end of a hind leg was amputated. The dog's bone was pinched off with force forceps into about fifty pieces, these were placed in the granulations of the tissue of the boy's leg, where it had surrounded the bone. The wound was then covered with oiled silk and the leg dressed with antiseptic gauze. The dog used died from the effects of the ether. The physicians say that everything favors a successful operation.

ROBBERS FRUSTRATED.

In an Attempt to Rob a Passenger Train on the Southern Pacific.

SAN ANTONIO, Tex., Jan. 9.—The officials of the Southern Pacific railroad, learned yesterday that an attempt was to be made to rob the west bound passenger train last night between Flatonia and Wielder station. The trainmen, passengers and express messengers were provided with rifles and pistols. At the point where the robbery was to take place, a man signalled to the engineer to stop the train. The train slowed up and a number of shots from the trainmen caused the man who signalled to flee. It is thought he had confederates concealed in the underbrush.

POLICE CALLED

To Disperse a Mob of Strikers at Lynn, Mass.

LYNN, Mass., Jan. 9.—An angry crowd of several hundred persons gathered about the Morrocco factory of John E. Ronald, where a large force of non-union men are employed, yesterday afternoon and gave vent to their anger by throwing missiles through the windows, and insulting the men. The police had to be called to disperse the mob. It was expected that the scenes of the afternoon would be repeated in the evening, and a large force of police was on hand, but no demonstration occurred.

A GENERAL EXCHANGE.

New Building to be Erected at Philadelphia.

PHILADELPHIA, Jan. 9.—The joint committee of the exchanges of this city met at the board of trade rooms yesterday, for the purpose of considering the advisability of building a general exchange. So general was the response that the projectors will at once proceed to raise the necessary money to erect the building. It is proposed to have a structure 150 by 400 feet in a central location, which will cost about $2,000,000.

Earthquakes.

RUSK, Texas, Jan. 9.—Wednesday night this town and immediate vicinity experienced two well defined shocks of earthquake.

TAKEN TO THE TOMB!

The Funeral at Chicago of Emma Abbot, the Sweetest Singer of America.

CHICAGO, Jan. 9.—The remains of the late Emma Abbott arrived here shortly after 9 o'clock this morning from Kansas City, and were received at the Union depot by the male members of the family. Under escort of the members of the company, they were conveyed to the Continental hotel.

The city of her birth has made a sad farewell to Emma Abbott, and this afternoon all that was mortal of the little songstress, reposes in a vault in Graceland cemetery. The vast throng which filled every nook and corner of the spacious Music hall, this morning, and the equally large crowd on the outside which strove in vain to gain admittance, was a strikingly popular tribute to a typical American girl, who from a lowely position had by energy and determination, carved out her path to fame and fortune.

The remains, clad in satin of spotless white and enclosed in a magnificent casket, rested at the foot of the platform. The religious services were conducted by Prof. Swing and Dr. H. W. Thomas, while a mixed quartet rendered "Nearer My God to Thee," and other sacred selections which were favorites of the late prima donna. In the audience the theatrical lodge of Elks attended in a body, while in the balcony and galleries the very rich and very poor were indiscriminately mingled, and there were few dry eyes in the vast assemblage when Prof. Swing dilated on the endearable characteristics of the deceased.

At the conclusion of the services those present were afforded an opportunity of taking a final farewell, and the casket was then closed and sealed. The procession of carriages which formed the cortege to Graceland cemetary was over half a mile in length. The honorary pall bearers were: J. H. McVicerry, Harry L. Thaw, Thomas W. Pryan, Milward Adams, H. J. Powers, and W. J. Davis. The active pall bearers were: C. H. Pratt, Signor Perucit, Signor Michelina and Geo. Loomis, of the Emma Abbott company.

UNDER A WAGON BOX.

Farmer Diedrich Wiebke is Dragged Almost to His Death.

About 2 o'clock this afternoon, Diedrich Wiebke, a farmer of Lake township, was in the act of unloading some grain at the doors of the City mills of C. Tressolt & Sons. A locomotive on the Nickel Plate railroad dashed past while the farmer was thus engaged and before he could get control of the animals the team turned suddenly and upset the wagon.

Mr. Wiebke was buried beneath the wagon-box and dragged a considerable distance. When he was released from his perilous position he was unconscious. He was conveyed to the City mill office, where Dr. E. J. McOscar examined his injuries and found them to be very severe. The left ear was torn off and several large scalp wounds were inflicted, besides other lacerations and bruises. Mr. Wiebke will probably recover, although he is very seriously hurt. The horses were captured, but the wagon was wrecked.

DEATH IN A FIRE.

The Remains of Hon. Wm. T. Carrington Found in the Ruins.

MORGAN CITY, La., Jan. 9.—The Lawrence homestead, situated on the outskirts of the city, was burned at 3 o'clock yesterday morning. The Hon. Wm. T. Carrington, ex-collector of this port, occupied the house, and had not been seen up to a late hour Wednesday night. In the search among the ruins yesterday the remains of the unfortunate gentleman was discovered. An investigation is going on to determine whether or not he had been foully dealt with, and the house fired to cover up the crime. It is the general supposition however, that the affair was accidental.

REFUSED TO SIGN A DEED.

An Ohio Man Murders His Mother-in-law on that Account.

DAYTON, Ohio, Jan. 9.—At Greenville last night, a few miles north of here, Chris. Oelschlager went to the residence of his mother-in-law, Mrs. Charlotte Reese, and upon her refusal to sign a deed, he began plunging a dirk into her body. He stabbed the woman twenty-six times—three times through the heart. She died immediately. Oelschlager was arrested, and may be lynched.

A BLOODLESS DUEL.

Neither of the Participants in it Was Hurt.

PITTSBURG, Pa., Jan. 9.—Signor Barsachnini, editor of the Caperaw, and an Italian named Flippini, have just returned from Canada, where they went to fight a duel. Neither was hurt. The duel grew out of attacks in Barschini's paper upon Flippini.

IN THE FIELD AGAIN.

Dr. S. C. Metcalf Will be a Candidate for Health Officer.

The candidates for the office of health officer, whose names will be submitted to the council next Tuesday evening, will be Dr. L. T. Sturgis, the present incumbent, and Dr. S. C. Metcalf. The latter gentleman served in the position for a number of years and he will make a hard fight to get the place again.

FRIEND OF SAILORS.

The Mission of Capt. W. H. Law, the Missionary, in This City.

Capt. W. H. Law, missionary superintendent of the Western Seamen's Friend society for the Les Cheneaux region, on the north shore of Lake Huron, is in the city for the purpose of raising funds to aid in his work. Rev. S. A. Northrop, of this city, who is personally acquainted with Mr. Law, speaks of his work in the highest terms, as do also a number of distinguished people in different cities who have visited his mission field during their summer vacation. His work is undenominational in character, and he does the work of an evangelist in a wild region of country over sixty miles in length and from twelve to twenty in breadth.

Over four years ago, when he had just settled in that new country, he did something which, for a minister of the gospel, required considerable nerve. A large vessel had come to the Les Cheneaux islands for a load of cedar. The cedar-cutters and lumberman came down from their log cabins in the woods to help load her. As the work was advancing, two men, one of them known as the "Wild Irishman," became very reckless in their work, thrusting the timber through the port-holes in such a way that it would strike the sailors who were receiving it and throwing it away. One sailor had been disabled for a time by a cruel blow received in the back. Mr. Law, standing near, took in the situation and remonstrated against such cruelty. One of the men answered: "The life of a sailor is worth no more than that of a dog."

There was no officer of the law within a day's journey. The county was not yet organized into townships. There was every prospect of a general fight between the sailors and the "mossbacks," as the cedar men were called. Something had to be done, and done quickly, too. Turning to the men who had begun the disturbance, he remarked:

"I have reasoned with you; indeed, I have preached to you a gospel of mercy, but you take no heed. I will now preach to you a gospel of justice. Ye shall have justice without mercy, who show no mercy. I am not in the fighting line myself, but I think I have enough money by me to hire enough men to thrash you two fellows, for you richly deserve it."

All hands stopped work and looked on in amusement. The captain of the vessel hearing of the difficulty came to the forward deck, and looking over the port bow, shouted, with considerable profanity thrown in: "Here, you two miserable 'mossbacks,' what do you mean? Are you going to kill my crew? If I see any more of this I will come down and throw you into the lake." From this time out quiet prevailed while the vessel was being loaded.

Mr. Law is a pleasant looking man of about thirty-five years, and although well built and muscular, he is not large. About a year ago he had occasion to give a log cutter a little lecture that was not appreciated. Too broad shouldered, rugged fellow, looking in disdain on the missionary, replied: "If you were a size larger I would take you by the throat." Mr. Law, quick to observe and appreciate the code of honor observed by these men—never to thrash a man smaller than themselves—with a good natured smile and a playful remark appeased his wrath. A few months after this he preached to a company of men engaged in cutting sawlogs. The meeting was held in a large log cabin covered with split cedar and bark. After a service of the simplest character, this man being present and much impressed with the sermon, got up and said:

"You all know me. I have been a hard case, but I am going to turn over a new leaf. I want to be a Christian."

The missionary, in the most unceremonious manner, walked down to him, took him by the hand, and remarked: "I extend to you a brother's hand, back of which you will find a brother's heart beating a lively pulsation of love, and good will for you. God bless you. We are friends now."

Mr. Law is establishing a Bethel home in Hessel, the most central place on the lake shore opposite the first entrance of the Les Cheneaux islands. The Bethel will consist of a chapel, parsonage and school room combined, with reading-room and public library, so that the young people for miles around will have good reading, and the people throughout the community a place in which to worship. Here Indian and white children will receive instruction of a practical character.

The following real estate transfers have been recorded: John McGeehan to Thomas P. McArdle, lot 54, Green's subdivision, $1,299.95; Perry Randall to Joseph H. Grier, lots 19, 22 and 23, E. Hanna, sr.'s, subdivision, $600; C. J. Winch to David E. Hoover, lot 53, Winch's addition, $300; Fred Eckart to August Axt, lot 53, E. Hanna, sr.'s, addition, $300.

Evelyn, the fourteen-months-old daughter of Mr. and Mrs. J.W. Hippenhammer, is very ill.

ATTEMPTED SUICIDE.

John Franks, Distressed by Liquor, Tries to Take His Own Life, But is Unsuccessful.

To-day John Franks, a well known character about town, was locked up for drunkenness. The man was suffering from delirium tremens and he made several ineffectual attempts to take his own life. One means he adopted was to try and sever one of the arteries of the wrist and another to hang himself. The unfortunate man was transferred to the hospital, where he will have tender care and nursing. Franks has been been somewhat of a worthless fellow, a condition that was brought about by drink. He has respectable connections in the city.

OFFICERS CHOSEN

By the Ladies' Society of the First Baptist Church.

The annual meeting of the Ladies' society of the First Baptist church occurred last Saturday afternoon in the lecture room of the church. There was a large and enthusiastic gathering. About one thousand dollars has been raised in 1890, and success has attended the society in every endeavor. The coming year bids fair to be a still more prosperous one. The following officers were elected: President, Mrs. J. R. Medaker; first vice-president, Mrs. J. V. Smith; second vice-president, Mrs. J. Lehr; secretary, Mrs. A. Z. Polhamus; treasurer, Miss Laura Eehrer; directoresses, Mesdames J. W. Wells, J. F. Whitelesther, J. C. Eckert, J. Hornshire, E. N. Davenport, E. H. Rogers, J. A. Throckmorton, O. Bystone, Jennie Lyons, Henry Koons, Edward Disther, Frank Davis, Moses Reed, E. Tenney, S. E. Engle, P. M. Lindsley, and the Misses Jennie Fleming, Laura Freer, Z. McLain and Dora McMahon. THEIR LAST SLEEP.

Death of Mrs. Eliza Hartman, an Old Resident—Other Deaths.

Mrs. Eliza Hartman, widow of George R. Hartman, died last night at her home, 167 West Washington street, of heart trouble, aged nearly seventy-six. Mrs. Hartman was born in Pleasantville, Ohio, near Lancaster, and came to Fort Wayne in 1840, the year the Wabash and Erie canal was opened, and has been a resident here ever since. Mr. Hartman died in 1870. Mrs. Hartman leaves six children to mourn her loss. She was a good, kind and true woman, a loving mother, esteemed for her many good traits of character. She leaves a large circle of friends, among whom she will be sadly missed.

The four months old child of Mr. and Mrs. Henry Wiegand, of 219 East Jefferson street, died this morning of heart failure. The funeral will take place Sunday at 1:30 from the St. Mary's Catholic church.

Last evening at 7:30 o'clock, occurred the death from brain fever of the little 4-year-old child of Mr. and Mrs. John Drahot, at 160 Wallace street.

The funeral of the late Mrs. Nancy Phillips, wife of George Phillips, will occur Sunday morning at 10 o'clock, from the residence, north of the city on the Lee gravel road.

A LONG TRIP.

A Fort Wayne Party Who Will Take In a Panorama of the West.

Mr. Alex. McKernan, the well known Fort Wayne contractor, together with Mr. S. Gaughan and C. D. Flint, left over the Wabash for an extended tour through the west. They will pass through Arkansas and Texas to El Paso, thence to the City of Mexico, returning via El Paso and proceeding through Arizona to southern California, where several days stop will be made. San Francisco will be the next point of interest to be visited, after which they will continue the journey to Portland, Tacoma, Seattle, etc., returning via Salt Lake, Pueblo, Denver and Kansas City. The tour is a pleasant one and such tickets covering the whole tour costs but $100.35 each, good for six months.

TWO CHOIRS.

Singing Organizations Meet and Elect Officers for the Year.

The choir of Emanuel's Lutheran church held a meeting last evening and held an annual election of officers. The list of the chosen few is as follows: Martin Gross, president; Henry Saidhoff, vice-president; Henry Hitzeman, secretary; Gottlieb Niemann, treasurer. A rehearsal was held after the meeting. A reception will be given one week from next Tuesday.

The choir of the Zion's Lutheran church held a meeting in the school house on Creighton avenue, last evening and elected the following officers: Fred Heine, president; Chas. Gerke, secretary and cobler.

The "Out of Sight" company is registered at the Randall. The party came from Findlay, Ohio, and will go to Cleveland after filling engagements at the Temple this and to-morrow evenings. There are twelve members in the company.

THE message of Governor Campbell, of Ohio, recommends the Australian ballot system and urges a compulsory primary election law.

AT the meeting of the Indiana republican state central committee at Indianapolis, a resolution was offered in favor of permanent headquarters and a cheap republican afternoon paper at the state capital.

FIVE democratic members of the legislature of Ohio have died since the election in 1889. This has wiped out the democratic majority in the senate. The last vacancy thus occasioned in that body cannot be filled before February. Until that time no political legislation will be possible in Buckeyedom.

THE village of Huntertown was in a furore, Wednesday, over the discovery of a pair of handcuffs, feet manacles and chain and ball attachment. A hand made key was left in the lock. The villagers took to the woods in the belief that Kuhns had escaped again. No owner for the outfit has been discovered.

THE government policy towards the Indians of the northwest is such that were the same policy instituted by some foreign country towards her warden children there would be an organization at once in this country to prevent the criminal act. Our Indians are not all good Indians by any means, but the government always offers the pretext for the frequent outbreaks.

WHAT is likely to prove one of the most remarkable sales of paintings ever held in America will take place in the disposal of the second collection of Mr. George I. Seney, in the assembly room of the Madison Square Garden, New York, in February. The sale will be managed by the American Art association. The first collection of Mr. Seney was sold in March, 1885, and the 285 works brought, at Chickering hall, $406,910.

IN Minnesota democrats and alliance men have control of the legislature; in New York the democrats have a majority in the assembly for the first time in many years; in Kansas the alliance has a sufficient majority on joint ballot to elect the United States senator; in Illinois three alliance members of the legislature hold the balance of power; in Nebraska the alliance members control the legislature, and in New Hampshire the election of a republican United States senator depends upon a technicality and Bill Chandler's ability to "fix" things so that the democracy will be out counted. The republican party seems to be catching on to the icy end of the plank all 'round this year.

FRANCIS MURPHY, now the most successful temperance reformer in this country, is doing a grand work at Indianapolis. Hundreds of men have signed the total abstinence pledge during the past ten days. His meetings are wonderfully successful. Prominent merchants, lawyers, doctors and mechanics are taking part in them, encouraging weak brethren to break off from the drink habit. Happy homes, where once misery reigned supreme, are among the best fruits of his labor. He is indeed a remarkable man. A leading member of the Indianapolis bar has compared him to St. Paul. He is not a scholarly man, but wonderfully persuasive. His magnetism is irresistible.

WILL TRY IT SOON.

Pennington's Air Ship Rapidly Approaching Completion—The Trial Trip to This City.

[Chicago Inter-Ocean.]

Wind and weather favoring, the great air ship of the Mount Carmel Aeronautic Navigation company will make its trial trip in thirty days. This is on the authority of E. J. Pennington, of Mount Carmel, Ill., who is at the Grand Pacific hotel in consultation with John C. L. Pugh, of Columbus, Ohio; Warren C. Dewey and Frank Smith, of Grand Rapids, Mich., directors of the company and members of the committee on buildings. These men held a private meeting yesterday for the purpose of arranging the details for the completion of the mammoth project which all are confident is already an assured success.

Whatever may have been the adverse opinions of critics as to the advisability of the undertaking, it is certain that some of the most substantial men of the country have enough faith in its feasibility to invest a goodly sum to push it to success, if that is possible. From authority that would seem to be the most reliable $20,000,000, it is said, has already been subscribed. Of this amount $14,000,000 has been taken by English capitalists and the remainder by American investors. Mr. Pugh, who is a well known capitalist of Columbus, Ohio, has confidence in the new invention, and besides being a heavy investor, is devoting considerable of his time to the enterprise.

It was the intention to have launched the air ship some time ago, but a hitch in the proceedings was caused by the action of John Shellenberger, president and manager of the Mount Carmel machine and pulley works, where the machine has been in the process of erection. These works were doing a flourishing business in Mount Carmel, employing 500 men. A short time ago Mr. Shellenberger, exercising his prerogative as president and manager, announced that the shops would close, discharged all the employes, and closed the doors. In speaking of this move, Mr. Pennington said: "The only reason that I can give for Mr. Shellenberger closing the shops is that he was jealous of the progress I was making as an inventor of the air ship. The ship was constructed there and everything was progressing nicely, when, on a sudden the order was given to close the shops. This, of course, greatly discommoded us for the time being, but matters will again be running smoothly in a few days. There will be a meeting of the stockholders of the Mount Carmel Machine and Pulley works next Tuesday and a reorganization will be effected. I have the assurance of the majority of the stockholders that I will be elected president and manager and that Mr. Shellenberger will be disposed. When this change is brought about I will at once reopen the works and begin operations on the air ship. The parts of the machine are already completed and it will require only about thirty days to put the ship together. By that time we will be ready to make our first trip. We will go direct to St. Louis, from there come to Chicago, and thence to Fort Wayne.

"Do I believe it will be a success! Well, I feel as sure of it as that I am alive to-day. Not only am I sure of it myself, but the men who have invested their money have confidence in the enterprise. It is not the visionary scheme of a theorist. In fact one might say it is not an invention at all, it is simply the practical combination of well known and scientific principles. There is nothing unreasonable or impossible in the idea. Of course there are scoffers. There always have been scoffers to very great invention that has ever been placed before the public. There were scoffers when it was proposed to travel over the rail by steam, and what would some of the old fogies have said before the invention of the telephone if one had told them that one might talk with a friend 100 miles distant and be able to recognize him by his voice! It is the day of great inventions—why not travel through the air? It is nature's right of way. The franchise is open to all. Now, some of these scoffers may pay dear for the injury they are attempting to do me. Yesterday I brought suit for libel for $100,000 against the St. Louis Globe-Democrat through my attorneys, Throughman & Campbell, of that city, and to-day I shall institute like proceedings for the same amount against the Chicago Tribune, based on an article published January 8. I intend to see that the invention of the air ship has fair play. I believe in the project and I will stand by it and force it forward to success and triumph."

The committee on buildings will be in the city several days and complete the details for necessary construction of buildings to finish the aerial navigator.

CHEATED THE SLOT-MACHINES.

A Baltimore Man Discovers a Way to Get His Cigars for Nothing.

The agents of the various nickel-in-the-slot machines have just discovered that a very inventive genius has been systematically beating all the machines at Baltimore. He has not been content with having himself weighed and hearing good music gratis, but has been laying in quite a goodly stock of cigars, cigarettes, chocolate, and nickel whisky bottles. His modus operandi was very simple, and he always put a nickel in the slot, but it was always the same nickel with a string tied to it. His method was to drill a small hole near the rim and tie a piece of thread to it. Two little creases filed from the hole to the outer edge let in the thread so that it didn't prevent the nickel from slipping in. The weight of the coin released the mechanism, and when this coin with a thread to it was dropped the machinerp was set in motion and the operator drew out his coin.

TOPICS TO BE DISCUSSED

By the Farmers' Institute Which Will Meet in This City.

An act of the last legislature provided for holding farmers' institute throughout the state, with a view to diffusing knowledge and improving agricultural pursuits.

Accordingly an institute will be held in Fort Wayne, at the circuit court room, Friday and Saturday, January 30 and 31.

This splendid program is announced:

FIRST DAY—MORNING SESSION.

10:00 Organization of Institute.
Music.
Invocation, Rev. S. Wagenhalls.
Address of Welcome, Hon. I. G. Nelson.
Response, Prof. W. C. Latta.

KICKED BY A HORSE.

Fred Becker, the Blacksmith, Laid Up With Severe Injuries.

Fred Becker, the well known horse shoer, of 11 East Washington street, was so badly injured while shoeing a horse that he is confined to the bed. While working with a horse belonging to Mr. Tremalt, he was badly kicked by the animal. The ligaments of his right leg are lacerated, and he suffered other painful injuries. Mr. Becker is a member of the fire department, and has many friends who will regret his accident.

It's all very well to talk about building new railroads and new steam ships—but how could men, women and children travel on them without Dr. Bull's Cough Syrup. Think of it. Ponder it. "Neither a borrower nor a lender be;" but take your own twenty-five cents and go round to your own druggist and buy yourself a bottle of Salvation Oil for your sprains, aches and pains.

In Alabama cotton is still king. The crop there for the last year is valued at $50,000,000.

A prominent physician and old army surgeon in eastern Iowa, was called away from home for a few days; during his absence one of the children contracted a severe cold, and his wife bought a bottle of Chamberlain's Cough Remedy for it. He said, from his experience with it, he regarded it as the most reliable preparation in use for colds, and that it came the nearest being a specific of any medicine he had ever seen. For sale by druggists.

The Rice family row and the scarlet fever scare at Fort Scott have subsided.

GOV. HOVEY'S MESSAGE

TRANSMITTED TO THE INDIANA LEGISLATURE.

The Election Law—Fees and Salaries—Township Trustees—Common Schools—Apportionment—Soldiers' and Sailors' Monument—The World's Columbian Exposition.

Gentlemen of the Senate and House of Representatives:

As directed by the Constitution, it is my duty to give you such information as I may deem necessary in regard to the condition of the State, and to recommend such measures of legislation as I may judge expedient.

THE ELECTION LAW.

The act concerning elections, passed at the last session, in my opinion, contains some valuable provisions, and some that are very objectionable. In approving that law I used the following language:

"Approved because it may tend to purify our elections, but I am afraid it will be found in practice, intricate, obscure and expensive. Without the enactment of a registration law, as demanded by our Constitution, our elections will remain open to corruption and fraud."

I did not, at that time, consider the question as to the constitutionality of any of its provisions.

It has been seriously doubted by the Governors of New York and New Jersey whether confining the elector to the "public ballot," and to nominations made by political parties, before the election, is constitutional. The right to vote for any man for any office in this State, whether the person voted for was nominated or not, has never been controverted from the organization of the State in 1816 until the passage of the present election law, which makes the right to vote subservient to a prior selection or election by conventions that nominate all the candidates. The conventions must first elect or nominate the candidate, and then the elector may be permitted to vote, if he votes at all, for such candidates as have been nominated and no one else. This robs the elector of his constitutional right, and is neither Democratic nor Republican in principal, and might lead to very grave consequences. Whether the objection to the "public ballot" is well taken or not, it will not be difficult to obviate it by amending the law and making the ballot free, as it always has been.

If possible, our elections should be made less expensive. The cost of the last is enormous, not falling short of $300,000.

The assessment of candidates for office by political committees, which has prevailed in many States for the last twenty years, is infamous, and it is generally believed that a large portion of the money contributed is not used for legitimate purposes. Where such practices are resorted to, few, except the wealthy, have any chance of nominations to office, as those who are unwilling or unable to pay, would seldom be selected by those who attend conventions. You can not lay your hand too heavily on such offenders, and I recommend that such practices be made criminal. The crime of bribery, and of ballot corruption, became so great in the State of New York, that on the 4th of April, 1890, the General Assembly of that State passed a law making bribery an infamous crime, and also provided that "every candidate who is voted for at any public election held within this State, shall, within ten days after such election, file an itemized statement, showing in detail, all the money contributed or expended by him, directly or indirectly, by himself or through any other person, in aid of his election. Such statement shall give the names of the various persons who received such moneys, the specific nature of each item, and the purpose for which it was expended or contributed."

Such statement must be sworn to and the affidavit must show "that the statement thus made is in all respects true, and that the same is a full and detailed statement of all moneys so contributed or expended by him, directly or indirectly, by himself or through any other person, in aid of his election." A failure to file such statement subjects the offender to punishment of fine, imprisonment, disfranchisement for five years, and a forfeiture of office.

In our last election a great many hundreds of tickets were thrown out, and not counted, on account of imperfect stamping by the electors. In Connecticut, the tickets are not stamped, but enclosed in a stamped envelope, with the election clerk's initials marked upon them. It is submitted, whether this would not be an improvement on our system, and whether the cost of our elections under the present law can not be greatly decreased.

FEES AND SALARIES.

There is a great dissatisfaction by all parties and all classes in the State in regard to our laws relating to fees and salaries. Some of our county officers are paid too much, and some of our superior officers are paid too little. It looks strange to see some of our clerks, sheriffs, auditors, and prosecuting attorneys, receiving from five to twenty thousand dollars a year, and the judges of our circuit courts, two thousand five hundred, and the judges of the Supreme Court only four thousand per annum. If all salaries now paid to the several State officers could be added to the legal fees collected by the State and county officers, the amount would make a fund that would liberally pay every officer in the State, and in my opinion, leave at least $100,000 to be paid into the Treasury of the State. With salaries attached to all our offices, and the fees paid into the treasury, there would be no inducement to collect "constructive fees," or more plainly speaking, there would be no inducement to carry out the wholesale extortion now practiced in some counties in the State. I earnestly recommend that all fee bills of officers, and all accounts against decedent's estates shall be required to be itemized and sworn to before they are allowed by the courts.

This reform is needed now. To allow the present office-holders to exact the exorbitant fees until their successors are elected is but to continue this unjust burden upon the people. The law is plain. All officers take their offices with their burdens, subject to be changed by the Legislature, except those whose salaries cannot be changed during their terms, as provided in our Constitution. Any other view of the fee and salary law is a deception and a sham. It will never be changed if we depend upon a sliding scale to meet the future, two and four years hence.

TOWNSHIP TRUSTEES.

The almost unlimited power of Township Trustees, under section 6006, R. S. 1881, in making contracts should be curtailed.

This section gives the Trustees the right to make contracts to the amount of all cash on hand, and to anticipate all taxes assessed against his township, for the year in which the debt is contracted. I recommend that said section be amended, so that all contracts, whose aggregate amount shall be in excess of one hundred dollars, shall not be made by a Trustee until he procures an order from the Board of Commissioners of the county in which such township is situated, authorizing him to make such contract.

COMMON SCHOOLS.

The cost of common school books has been greatly reduced, in consequence of the contract made by the State, under the act of March 2, 1889.

Our common schools are now open to all classes, and only need that the text-books used should be made free to all pupils, as recommended in my message to the last General Assembly.

I recommend that an act be passed, to place in the hands of every pupil, rich or poor, free of all costs, the text-books necessary for use in our common schools.

It is a mockery to say that our schools are free, as long as our pupils are compelled to pay for any part of a common school education.

APPORTIONMENT.

In compliance with the acts of Congress, Indiana will be entitled to elect thirteen members to the House of Representatives of the United States, and districts will have to be established, in which such representatives are to be elected. The State should also be districted, and the counties designated, in which elections will be holden, to elect State Senators and representatives.

Our Government was established upon the fundamental principle that a majority should rule, and I trust such an apportionment may be made, that this great constitutional right may be fully and fairly sustained.

RAILROAD COMMISSIONERS.

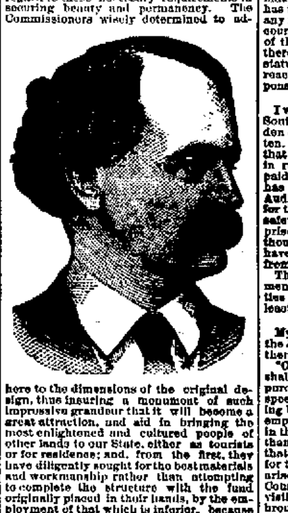

There is a great necessity for the enactment of the law providing for the establishment of a board of railroad commissioners for the State, who may have the general supervision of all railroads operated in the State, with power to inquire into all questions of neglect or violation of the law by said roads, with reference to business and public safety. Such commissioners should also be authorized to make all necessary investigations, to ascertain the amount of business done by said roads, and their value for taxation. Many of the States of the Union have enacted laws on this subject, with most beneficial results, and I commend the same to your careful consideration.

ROADS AND HIGHWAYS.

There is nothing more imperatively needed in this State than good, passable roads and highways. For months, in many counties, our roads are absolutely impassable with loaded teams. This not only affects the farmer, but every town and city in this State. It depreciates the value of lands, and causes the farmer, his hands and his teams to remain idle for many weeks in the year, and oftentimes deprives him of the best markets for his produce. Our legislators have been fully aware of the importance of this subject, and have made many efforts to remedy the evil, but so far with no great success. The labor which may be called out annually, and the amount of money paid for road taxes by the several counties, would keep our highways in a far better condition, if that labor and tax were intelligently used and expended. That the labor is not called out as it should be, and that our roads are worked by men who do not understand such labor, cannot be denied.

SOLDIERS' AND SAILORS' MONUMENT.

Owing to reasons which are fully explained by the contractor for the superstructure of the State Soldiers' and Sailors' Monument, in the annual report of the Board of Commissioners, he has been unable to complete his work upon that structure the past year, and announces that it will probably require until the first day of next August to do so. Nothing is lost, however, from this cause, as the decorations for this great work of art require time for their conception and treatment, if they are expected to possess that merit which will give fame to Indiana as possessing the finest monument in America. It also insures greater perfection in the materials and mechanical work, as can readily be seen by comparing it, as far as it has progressed, with structures of like character that have been hastened to completion without due regard to these necessary requirements in securing beauty and permanency. The Commissioners wisely determined to adhere to the dimensions of the original design, thus insuring a monument of such impressive grandeur that it will become a great attraction, and aid in bringing the most enlightened and cultured people of other lands to our State, either as tourists or for residence; and, from the first, they have diligently sought for the best materials and workmanship rather than attempting to complete the structure with the fund originally placed in their hands, by the employment of that which is inferior, because of its seeming cheapness. In doing this they have relied upon the intelligence, patriotism and liberality of the people to sustain them in making the monument really great, and they ought not to be disappointed. The artistic and inventive world has had its attention drawn to this work in an unusual degree, and if it is completed according to the plans of the Commissioners and with the artistic excellence which they design, it will mark a new era in the development of our State, and be a source of pride to every citizen. The present appropriation will complete the shaft and the terrace at the base, and in that condition it will surpass all other monuments in this country; but the fountains and cascades, the great groups of "War" and "Peace," and other statuary below ought to be added now, and I trust there will be no hesitancy in furnishing the necessary money. It would be an unwise economy to withhold it. A further sum is also required for a new pedestal on which to fittingly place the statue of the late Governor O. P. Morton, and I urge that this be appropriated without delay.

THE WORLD'S COLUMBIAN EXPOSITION.

The World's Columbian Exposition, or World's Fair, the buildings for which will be dedicated at Chicago, Illinois, in October, 1892, will probably excel any exhibition of similar character to be found in the pages of history.

Great preparations are being made by the several States of the Union and foreign nations, to exhibit their products and live stock to the best advantage.

To make a respectable representation of the wealth and resources of our State will require an outlay of a considerable amount of money. The legislatures of several States are proposing to appropriate from one hundred thousand dollars to one half million dollars for the erection of buildings and collection of exhibits. Indiana, in her great wealth in mines, minerals, manufactories, agriculture and live stock, should not lag behind her sister States in presenting her wonderful resources.

I shall recommend no particular amount that you should appropriate, but leave that to your better judgments, knowing that your great interest in the honor, pride and advancement of our State will guide you to the proper conclusion.

THE GETTYSBURG BATTLEFIELD ASSOCIATION.

All the loyal States, whose troops were engaged in the battle of Gettysburg, have erected monuments to mark the position of their troops in the battle, and have, with the exception of Indiana, purchased the grounds upon which they are erected. The monuments for the soldiers of Indiana are placed upon grounds purchased by other States. The Gettysburg Battlefield Association, through Col. John M. Vanderslice, requests an appropriation of $4,000 or $5,000 to pay for the ground upon which said monuments are erected, where many of our heroic soldiers fought and fell in defense of the Union. Money would not be spent in vain if every field of battle, where our armies were victorious, could be set apart with monuments as object lessons of loyalty for future generations.

STATE PRISON NORTH.

The Directors' report of the Northern Prison, for the year ending October 31, 1890, shows a daily average of seven hundred and fifty-one prisoners, and the total receipts and earnings for the year, $118,-315.12.

The Warden's report shows there was a balance of cash in his hands November, 1889, of $22,567.52; and on the 31st of October, 1890, of $17,916.53.

By what authority could the Warden hold cash balances in his hands which should have been promptly paid at the end of each quarter to the Treasurer of State?

The reports of the Directors and Warden clearly show that they have been wholly disregarding the law in the management of the financial affairs of the prison. On the 13th of July, 1889, I called the attention of the Warden by letter and requested that his accounts should comply with the law. I have been more particular on this point from the fact that the State has been in litigation with a former Warden of the Southern Prison on a large alleged defalcation, which took place in 1887. He kept his accounts in the same way that the accounts have been kept by the Northern Prison.

Under Section 6141, not one dollar of the earnings of the prison should be spent by the Warden. Every cent collected by him on the labor of the prison should be paid into the hands of the Treasurer of State. The expenses of the prison should be paid out of the moneys appropriated by the Legislature, and from no other source. The Warden has no legal right to look to, or use any other fund, and should confine himself within that limit.

In the report of the Board of State Charities, the Committee on Prisons and Reformatory Institutions, page 89, say:

"The most serious criticism on the management of the Northern Prison arises out of what is known as the slop contract. For many years past, long before the present Warden was appointed, it has been the custom to increase the Warden's compensation (which was justly considered to be insufficient) by giving to him, or selling to him at a nominal price, the slop or waste food. What the value of this may be is unknown; probably the popular estimate, which places it at several thousand dollars annually, is much exaggerated. The Warden, who has been asked by this Board to estimate its value, declares himself unable to do so. But whether the value be much little, the plan of giving any officer a perquisite is a very injudicious one, and this particular perquisite is especially so." * * * "The prisoners are well aware of the slop contract. They greatly over-estimate its value, and that their diet is chosen by the Warden so as to increase his profits, by giving them food which will be largely wasted. That is to say, they believe they are being defrauded in that which comes closer to them than anything else for the benefit of the Warden. This effect on the minds of the prisoners is the chief evil of the slop contract, an evil compared with which the trifling money loss to the State is not to be compared. This Board would recommend, as has been said in a previous part of this report, that the salaries of the principal officers of our prisons be increased, and that perquisites of any kind and every kind be absolutely forbidden."

It will be seen that besides the impolicy of making such a contract with the Warden, it is emphatically forbidden by our statutes which, by Sec. 6141, R. S. 1881, provide that "No contract shall be made wherein any of the Directors or officers of the Institution are interested."

I take pleasure in saying that the Board of State Charities were greatly pleased with the management of the prison and its inmates, and I have no doubt, in that regard, the officers are deserving of the highest commendation for the manner in which it is conducted.

This, however, should not give them a license to overlook and disregard the law, and take upon themselves the full management of the institution as though it really belonged to them. In view of the facts, and the history of State prisons in this State, I recommend that an act be passed making it a misdemeanor, with penalties, for the officers of any of our State institutions to make contracts with each other relating to the property or business of such institutions, and also making it a misdemeanor for any officer who has the financial control or management of any institution to fail in making out his accounts according to law. Some provisions of this kind are imperatively demanded, as there are no penalties prescribed by the statue, and as no legal proceedings could reach such evils without great delay and expense to the State.

PRISON SOUTH.

I wrote to the Warden of the State Prison South, at the same time I wrote to the Warden of the State Prison North. Capt. Patten, the Warden of the Prison South, since that time, has fully complied with the law in regard to the earnings of that prison, paid the same to the Treasurer of State, and has drawn all payments by warrants of the Auditor from the funds appropriated by law for that institution. There is no financial safety in transacting the business of the prisons in any other manner. About one thousand two hundred dollars per annum have been saved by the present Warden from the slops of the Prison South.

The salaries of the Wardens are not commensurate with their duties, responsibilities and labors, and they should receive at least $2,500 per annum.

SUPREME COURT.

My views have not changed in regard to the Judiciary since my message in 1889. I then said:

"Our Constitution provides that 'justice shall be administered freely and without purchase; completely and without denial; speedily and without delay.' Under existing laws, this high-sounding provision is an empty boast. Many cases are now pending in the Supreme Court which were filed more than five years ago, and it is to be feared that some have been appealed to that court for the sole purpose of delay. This delay arises from no fault of the Judges of the Court, but from their inability to fully investigate the numerous cases which are brought before them. I do not believe that the multiplication of Judges in the Supreme Court would tend to the furtherance of justice. No case should be passed upon without the full consideration of every judge upon the bench. This would be impossible if the number of Judges should be greatly increased." While the increase of the members would increase the number of written opinions by the Court, the consultation by many justices would delay final judgments, and probably result in fewer decisions. Besides, dissenting opinions, which always tend to weaken the authority of a decided case, would be far more frequent. My opinion still is, that the establishment of intermediate Appellate courts, with exclusive jurisdiction, within certain limits, with five justices, one for each of the five supreme judicial districts, would so lessen the docket of the Supreme Court, that it could keep up with all the cases that might be appealed. These justices might itinerate, and meet at stated periods, in the respective districts.

I do not believe that twenty judges, in one court, could perform the same labor, and leave satisfactory results.

STATE INSTITUTIONS.

Our Benevolent, Reformatory, and Charitable institutions, and Soldiers' and Sailors' Orphan's Home will expect the usual appropriations for their support and maintenance.

Some of them are also requesting additional specific appropriations for various causes and desired improvements, and are asking that a sufficient provision be made to cover their respective deficits of the past year. The deficits seem to me to be just, and I recommend that appropriations be made to pay them as soon as practicable. The reports of the several institutions will be laid before you, and will more fully enable you to consider the propriety of granting their requests.

The unfortunate affair that resulted in the death of Henry Blount, in the Insane Asylum at Richmond last October, will demand at your hands a careful investigation of the management of that institution, and such action as may be deemed just and right under the facts that may be developed.

The habit of Governors visiting the various institutions of the State has always been a mere formality. It is not possible in a short visit of a few hours, which can only be spared by the Governor, that he can investigate and understand the workings of any large institution. The act establishing a board of State charities, enables that board and secretary to obtain much useful information, which is published in their reports. When more specific information is required, it might be advisable to send non-partisan committees to make thorough investigation.

In my opinion it would be far better for the State, and to the benefit of each institution, if all the boards of officers who have the control of the same were non-partisan. In the appointments made by me I have rigidly adhered to that rule.

WHITE CAPS.

As the Governor has neither the means nor the authority to interfere in the arrest or trial of that class of criminals known as "White Caps," until the law is openly and forcibly defied, I recommend that the Board of County Commissioners be authorized to pay from the dog tax fund, in their respective counties, such sums of money as may be necessary to apprehend and bring to justice all such criminals as may be found within their respective counties.

The Governor then called attention to the finances of the State, and said:

Since 1877, a sufficient revenue has not been raised to pay the expenses of the State, and every year has added to our indebtedness, until to-day the State debt has reached the enormous sum of $8,540,615.12, with a still increasing indebtedness, unless some relief can be obtained by legislation. With the same system that has heretofore prevailed, we will still have to borrow money to sustain our institutions and expenses of the State, with an annual deficit of about $500,000.00. Surely the day of borrowing for such purposes should cease. We have no right to mortgage our future revenue, to be paid by those who may come after us. There are various modes of raising revenue in the States, but the most simple mode has been generally adopted in this State, that of capitation, or poll tax, tax on value on lands, and personalty, whilst in other States, different systems have prevailed. In New York, New Jersey, Connecticut, Pennsylvania and Wisconsin, and other States, scarcely any part of the tax for State purposes, is collected on lands. The farmer is left almost untouched, and the principal State revenue is collected from corporations and railroads. In these States corporations and railroads alone will nearly average the full amount of our entire State revenue.

For many years the State has only levied, for State purposes, one dollar and twenty cents on the appraised value of one thousand dollars, whilst the counties, cities, towns, and townships have reached in some instances as high as twenty dollars on the thousand. In addition to the State tax, making over three and one-half per cent. per annum on the value of the property assessed and taxed.

It would not be difficult to select objects of luxury and pleasure upon which a sufficient license as tax could be easily levied to pay all the expenses of our charitable and benevolent institutions, without resorting to the hard-earned savings of our land owners and laborers. In England and several of our States, a tax on "collateral inheritances," yields very large revenues. In Pennsylvania, in 1889, the income from that source amounted to $1,578,433.71, and the tax from notaries public amounted to $9,325.

In our present financial condition, you will be compelled to raise our taxes to at least twenty-five cents to one hundred dollars, or adopt the system of other States by raising a sufficient revenue from corporations and licenses; and as we are now paying $273,825 interest on our State debt annually, a sinking fund should be provided to liquidate our present great indebtedness.

In default of these recommendations it will be necessary to pass an act, authorizing the officers of State to borrow more money for future expenses.

Gentlemen, the problem is in your hands, and I trust you may find a way to solve it by just legislation. ALVIN P. HOVEY, Governor.

THE FAIR SITE.

The Question to be Considered by the Stockholders.

The directors of the fair association met last night in the circuit court room, with President Foster in the chair, to take action regarding the purchase of grounds for the association. The directors reported that there were objections to the purchase of the Evans' farm, as the approaches were not as represented, and also that the tract does not extend to the river. A motion was made to reconsider the vote by which the directors had been instructed to purchase the Evans farm. A general debate followed. A motion was made by Mr. Ellison to lay the motion to reconsider on the table. A call of the stockholders was ordered and the vote resulted for tabling 385 votes against tabling 535, so the motion was lost. It was then moved to adjourn. This vote was taken and resulted—ayes 445 and nays 485. The vote then was taken on the motion to reconsider. The vote stood—ayes 630, nays 160. Moved to adjourn, subject to the call of the president, which was carried. The action of the stockholders thus makes the selection of a site an open question. All the work of selection will again come before the stockholders for consideration at their next meeting.

A BUSINESS CHANGE.

M. L. Jones Sells His Photograph Gallery to Delphi Parties.

M. L. Jones, the photographer, has sold to F. Howenstine and H. D. Orr, of Delphi, Ind., his photograph gallery at 44 Calhoun street, and the new owners will assume charge of the business next Monday. Mr. Jones established the business many years ago and it has thrived under his management. He retires because his photograph supply business has grown to such proportions that it requires all of his attention. The newcomers arrived in the city to-day. They are experienced and will no doubt prove to be enterprising gentlemen and valuable citizens. Mr. Howenstine will reside with his family at 74 West Main street, and Mr. Orr, his brother-in-law, will reside with his family at 20 North Cass street.

Ed Claytor, of the Bass boiler shop, is doing some work at Columbia City.

Engine No. 16 has been turned out of the Grand Rapids shops after a general overhauling.

Joe Sohnee, of the car wheel department of the Bass works, failed to report for duty this morning.

The Brotherhood of machine moulders will have a regular meeting in their rooms in the K. of L. hall this evening.

Dr. Oisna, medical examiner of the relief department of the Pennsylvania company, arrived in the city this morning.

The engine of passenger train No. 3, of the Nickel Plate road, came into this city with the headlight broken, yesterday.

Frank Tyler, Al Ranking and Wm. Wesley, of the Wabash shops, were absent from duty yesterday to attend a funeral.

G. P. Lehr and C. F. Dyer, of the Pittsburg round house, are obliged to be absent from their duties on account of sickness.

Robert Cran, foreman of the car wheel department of the Bass works, and well known councilman, has left on a trip with the city officials.

Engine No. 211 has been turned out the Wabash machine shop after a general overhauling, and No. 78 has been received for general repairs.

M. Slattery was in the city on business yesterday. He was formerly a brakeman on the Nickel Plate road, with headquarters in this city.

Jacob Cashmere, of the machine department of the Wabash shops, who has been at the company's hospital at Peru, has returned home. He was sick and was unable to be on duty.

Thomas McCoy, messenger in the offices of the Grand Rapids railroad in this city, who has been at Chicago to visit his parents during the holidays, has returned. Ed Lynch performed the duties during his absence.

Wm. Eberhart, of the Bass moulding rooms, has received a check from the Indianapolis insurance association for the amount due him. He was badly burned and was absent from duty ten weeks. The check amounted to eighty dollars.

George Schwartz, formerly of the boiler department of the Kerr Murray works, who was in this city to spend a few weeks, has returned to his headquarters at Toledo, Ohio. He is now a brakeman on the Toledo and Ann Arbor railroad.

H. Greensburg, of the planing mill department of the Pittsburg car shop, was injured yesterday while handling a heavy body bolster. It accidentally fell on his foot, injuring it quite badly. He will not be able to resume his duties for several days.

The little daughter of John Druhot, of the Bass moulding rooms, died last evening at his home, on Wallace street. Mr. Druhot has the sympathy of many friends in his bereavement. The funeral will occur Sunday afternoon from the Cathedral.

The Southern Pacific has contracted for the building of a funeral car, with side entrances and compartments for mourners. While it is to be neither expensive or elegant, it will be appropriate in every respect to the service for which it is intended.

The class in mechanical drawing, composed of employes from the Pittsburg shops, will have their regular meeting in their rooms at the Library hall this evening. Quite a number are now in the class. F. L. Sessone, of the electric light works, is the teacher.

The machine department of the American wheel works, which has been a landmark on Toledo street, near the junction of Lafayette street, has been torn down. A part of the frame work, which was left standing, has been remodeled and will be used for a store room.

President Ingalls is quoted as saying that the report that the big Four would be one of the bidders at the foreclosure sale of the Dayton, Fort Wayne and Chicago road has no foundation. The holdings of the creditors are such that it would be useless for an outside party to bid on the property.

J. A. Nolan, formerly of the Pittsburg machine shop, is the recipient of a novel Christmas present, which he received from a friend formerly of this city, but now located in the City of Mexico. It is a handsome coffee-wood cane, artistically carved, and bears the emblem of the country from which it was sent.

The injunction suit in which the Indiana Midland is plaintiff and the Fort Wayne, Terre Haute and Southwestern is defendant, was tried in the Clay circuit court, at Brazil. Documentary evidence was introduced by the defendant to show that the old north-and-south grade had been forfeited to its original owners. Reflection was cast by affidavits of former employes or citizens from Anderson, Ladoga, Lebanon and elsewhere along the route on the road-bed, rolling stock, and financial condition of the Midland. A disclaimer was then urged of any intention to trespass on the Midland's right-of-way from Carbon to Brazil. Mr. Crawford objected that the disclaimer was not specific as to the grade of the old north-and-south road, which, in compliance with the laws of Indiana, had been appropriated by his company as a right-of-way. Judge McGregor will render his decision to-morrow.

Col. John Lee still clings to the belief that the American Midland will be extended to Fort Wayne. The Findlay and Western, incorporated last week, proposes to build the road to the Indiana state line, and Colonel Lee proposes to incorporate another company to build the road from the Ohio state line to Fort Wayne, the two then to be consolidated under the name of the Findlay, Fort Wayne and Western.

SERIOUSLY INJURED.

Mrs. Flora Brown Confined to Bed From the Effects of a Fall.

Mrs. Flora Brown, of 63 Prince street, fell on a slippery sidewalk and suffered injuries which rendered her helpless. The lady was conveyed home and it is believed she will be bedfast for a long time to come. She is a heavy woman and consequently the effects of the accident are more serious.

Mrs. Brown is the mother of John Brown, the superintendent of water works along the Wabash railroad.

COMPLIMENTARY RECITAL.

The Beethoven Society Will Give a Select Entertainment.

On Tuesday evening, January 13, the Beethoven society will give a complimentary recital at the Electric Club hall. There is no charge for admission, but invitations are issued. It will be the first public entertainment given by the society, which now numbers nearly one hundred members, and it will be under the direction of Professor Miles, the popular leader of the organization since its inception. The program will be as follows: 1. When the Winds Breath Soft, Webb, Beethoven society. 2, Piano solo, F. Chopin, a Valse in E minor; Shubert-Liszt, b Auf dem Wasser zu Singen; Leschetizsky, c Fisher Song, Miss Josephine Large. 3. Bridal chorus—from "The Rose Maiden," F. Cowen, Beethoven society. 4. Harp solo, selected, Miss Josephine A. Albert. 5. Comrades in Arms, Beethoven, male chorus. 6. Piano solo, Mendelssohn-Capreccio Brilliant, Miss Anna Siboni. 7. Quartet, selected, Hayden quartet. 8. Harp, Le Sarafan-Oberthur, Miss Josephine A. Albert. 9. Hallelujah—Mount of Olives, Beethoven, Beethoven society.

Fun will be the order of the evening at the Temple to-night and to-morrow night, when "Out of Sight" will receive its initial performance here. The play is of the farcial order. It comprises all the elements of farce comedy, music, burlesque, pantomime and terpischore. The play in plot deals with the fortunes and misfortunes of a young girl, who in obscure circumstances, suddenly finds herself the possessor of millions. It points sarcastically to fortune-hunting nobility and snap aristocracy.

DELLA BIRD.

How Kuhns' Sweetheart Received Him at the Tiffin Jail.

(Fostoria Democrat.)

Kuhns has become a "naturalized" inmate of the Seneca county jail and is resigned to his fate. When the hack containing Kuhns drove up to the jail, Della Bird, his alleged wife, who is being held as a witness, was at one of the windows of the sheriff's residence, and as soon as she saw him she threw up her hands, turned pale and exclaimed: "Oh, heavens! they have got him here."

When Kuhns was asked by a reporter if he had met his old girl, he said, with an oath, that he had not and it would be a long time before the authorities would allow him to talk with her. The girl was asked if she had talked with him and she replied:

"No, nor I don't want to talk with him."

"Have you seen him?"

"Yes, I saw him as he was being brought into the jail."

"How does he look?"

"Oh, he looks awful bad, but that is not strange after what he has passed through. The wonder is that he is not dead."

Detectives Mahoney and Norris are at Tiffin, having been cited to appear in the case. Mahoney had an interview with Kuhns, and they joked about the incident of the latter escaping from the former.

W. J. Lewis and Frank McWain have arrived from Napoleon, Ohio, and are now conducting the Diamond hotel. They are pleasant gentlemen and will no doubt keep their hostelry to the front.

The home of Mr. and Mrs. Charles Conklin, 11 North Cass street, was thronged last evening, the event being a social given under the auspices of the young men of Trinity M. E. church. The affair was a success in every particular.

Henry Thiele, brother of William Thiele, who died a few days ago, is very ill with typhoid fever at his home on Wilt street. Almost the entire family were down with the disease. The family of Charles Meyer, adjoining, was also down and all of them have not yet recovered.

Erich J. B. Richter, "one of the finest" on the police force, was thirty-five years old yesterday, and the anniversary will be pleasantly recalled by him for many years to come. A fitting celebration of his birthday took place at the popular officer's home, 39 Buchanan street, in the afternoon, at which a number of his friends on the force were present among many others. None of the accompaniments to a grand social time were missing on the occasion.

A delightful party was given last Wednesday evening in honor of Miss Maggie Rodeheaver, of Jackson, Mich., at the home of Horace Rodeheaver, 8 Hendricks street. Games and card playing were the features of the evening. Among those present were: Misses Mamie Smith, Henrietta Smith, Budd, of Toledo; Michaels, Rose Lang, Minnie Lang, Brighton, Messrs. Nieraiter, Kiatt, Stapleford, Briston, Richards, Drake, Major, Manchester. An elegant lap supper was served at 12 o'clock which consisted of all the delicacies of the season.

The Fort Wayne Curling club held their annual contest for the silver "point" medal, at Brookside, yesterday, with the following results: Thomas Stewart, 8; D. Miller, 6; Thos. Kavanagh, 5; Geo. Donald, 4; J. Miller, 4; John Kidd, 1; Mr. McClellan, 2; O. B. Wiley, 1; M. M. M. Slattery, 2; Geo. Thumm, 5; Thos. Neville, 6; James Gillie, 6; W. Miller, 4; D. Heathman, 1; M. McNaughton, 2; S. L. Butler, 3; Robt. Panman, 1; Frank Bellamy, 0, (goose egg.) Mr. Stewart received the prize on the ice and immediately thereafter was showered with congratulations.

January is pre-eminently a legislative period. The legislature of twenty-eight states meet this month, and twenty-two meet this week. The following states led off, the legislatures of California, Nevada, Ohio, Tennessee, Wisconsin and Washington having met on Monday. On Tuesday, Delaware, Kansas, Minnesota, Nebraska, New Jersey, New York, Pennsylvania and North and South Dakota, started the legislative mill to grinding. Wednesday, North Carolina, Michigan, Massachusetts; Illinois, Connecticut and Colorado fell in line, and yesterday Indiana started her law-making machinery. The legislature of six other states will assemble next week.

While recently addressing a number of Greek physicians Dr. Koch said he was glad to know that intelligent and skilful Greeks were using his cure. The Grecian islands, he said, met his views of a proper location for a consumptive sanitarium.
